EDUCATION

Georgia Institute of Technology, Atlanta, Georgia

May 2030

Bachelor of Science in Computer Science

Relevant Coursework: Object-Oriented Programming, Linear Algebra

Rye Neck High School, Mamaroneck, New York

June 2026

Regents Diploma with Advanced Designation

Relevant Coursework: AP Computer Science A, AP Calculus BC, AP Statistics, Differential Equations

Honors: National Merit Finalist, High Honor Roll (4 years), AP Scholar with Distinction, Mastery in Math and Science

TECHNICAL SKILLS

Languages & Frameworks – JavaScript, HTML/CSS, SvelteKit, TailwindCSS, Java, Python, Flask

Databases & Tools – SQL, SQLite, Supabase, PostgreSQL, SQLAlchemy, Git, VS Code, Cloudflare, Vercel, Mux

Hardware – Arduino, ESP32, PCB Design, KiCad

WORK EXPERIENCE

Inclusive Media Productions, Mamaroneck, NY – *Software Developer*

Jul 2026 – Present

- Built internal job and employee management software with SvelteKit and Supabase for a 20+ technician production company, tracking timesheets used to calculate \$20K in payroll over two months.
- Designed Supabase database schema to relate jobs, call times, positions, and technicians together and created automated backup and testing processes to ensure high uptime and reliability
- Collaborated with project manager to ensure that software was built custom to fit the needs and specifications of the production company, worked with feedback to revise and tailor features and interface for greater efficiency and ease of use

Inclusive Media Productions, Mamaroneck, NY – *Live Production Intern*

May 2026 – Jun 2026

- Designed and built a custom paywalled livestreaming platform that facilitated \$4K in ticket sales and supported 300+ live viewers with no technical issues during the event
- Shadowed production manager while assisting with tasks such as load-in, audio and lighting operations, troubleshooting, and strike/loadout for corporate and school productions

MakeInspires, Mamaroneck, NY – *Instructor*

Jun 2024 – Jun 2026

- Served as instructor teaching after school STEM workshops, summer camps, and in home private lessons
- Performed various organizational and technical tasks around the makerspace such as operating 3D printers, assisting in packing kit materials, etc.

PROGRAMMING PROJECTS

MealWise (Submitted to HackGT 13) | SvelteKit, Supabase, Gemini API

September 2026

- Built a social platform for Georgia Tech students to discover, rate, and share dining hall meals through photo-based reviews, likes, and personalized feeds
- Integrated Supabase Auth, PostgreSQL, and Storage to support user accounts, persistent posts, image uploads, and data validation, including @gatech.edu-only registration
- Integrated Gemini and Nutrislice APIs to dynamically retrieve dining hall menu data and tag posts with menu item labels

Theatremix Tools | SvelteKit, Gemini API

June 2026

- Built a web application for creating and editing Theatremix files, streamlining common console programming tasks
- Integrated the Gemini API to automatically generate microphone assignments for shows with large or multiple casts

College Football Picks Website | Flask, SQLAlchemy, CFB API

Nov 2025 – Dec 2025

- Engineered a robust system to fetch live college football bowl information and allow 30+ users to make their picks reliably throughout the college football playoffs

LEADERSHIP AND COMMUNITY ENGAGEMENT

Science Olympiad Captain, Rye Neck High School

Sep 2025 – Mar 2026

- Led team to best finish in regional competition in over 15 years, worked on build events such as Robot Tour and Electric Vehicle, won medal for 2nd place in robotics event

Programming Club President, Rye Neck High School

Sep 2025 – May 2026

- Organized and hosted a Binary Bingo event to raise interest in coding in 100+ middle school students

ADDITIONAL SKILLS AND INTERESTS

Interests: 3D Printing, Rocketry, Reading, Baseball, Football

Skills: Live Audio Engineering, Sound Design, Lighting Design
